players BENCHES

tip & roll BLEACHERS

TIP AND ROLL bleachers are available in three, four and five rows. They are manufactured with caster wheels for indoor use. These designs are perfect for scalable venues with variable seating requirements. They are available in various lengths.

- Clear Anodized Aluminum-A-Plank seat boards and Double Mill finished foot boards
- Hot dipped galvanized steel under structure

We custom fabricate any of our “Tip & Roll” Bleachers to meet your needs.

01 PORTABLE

Portable benches are designed for mobility. These benches are not fastened to the ground.

02 SURFACE MOUNT

Surface mount benches are designed with a flat bottomed pedestal that is anchored to the ground.

03 DIRECT BURIAL

Direct Burial benches are inserted directly into the ground below giving a permanent structure once installed.

PLAYERS BENCHES are available in any length, with or without backrests. Clear anodized extruded aluminum plank construction with hot dipped galvanized legs (portable or permanent).

- 2-3/8” O.D. Sch 40 pipe construction
- Hot dipped galvanized after fabrication
- Pressure treated lumber, Cedar, Aluminum-A-Plank, and/or Recycled Plastic seats
- Benches can accept 2”x6”, 2”x8”, 2”x10”, 2”x12”
- Frames only if required

grandstands

BLEACHERS

W.H. Reynolds (Cambridge) Ltd. is committed to maintaining the highest standards in design and manufacturing of the finest quality seating. Our bleacher seating applications can be used in indoor and outdoor facilities, such as schools, arenas, pools and sports fields. We have installations in major cities across Canada. We look forward to assisting you in the early stages of your project with free consultation, specifications, cost estimation and samples. With our years of experience, we can respond to your seating needs. Applications may vary according to specific needs. Please call our office for exact application requirements.

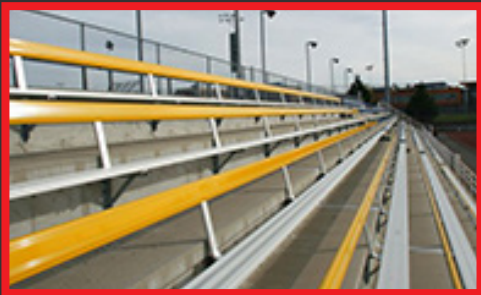

bleachers

STANDARD

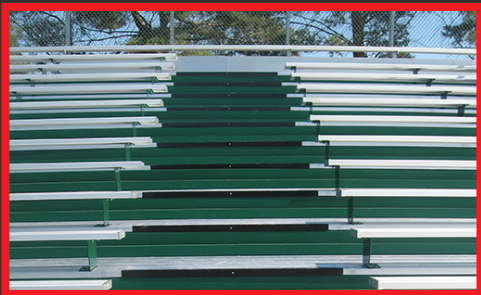

W.H. Reynolds modular bleacher systems are designed for installation based on the space available and the seating required. Our bleacher frames come in 3,4,5,10,15 and 20 tier design. They are available in various lengths and can be installed on elevated superstructures, as more seating is required. This allows for construction of multi-tiered bleacher systems that make maximum use of the space available and are built to meet and exceed all Canadian Building Code requirements. All steel framework and all the post supports are hot dipped galvanized after fabrication. Stairs and ramps can also be installed on your bleacher system to allow easy access for everyone. Custom seating can also be created for all stadiums with concrete superstructures.

Specific bleacher models have the option for accessories to elevate your bleachers. Our accessories include: backrests, aisle's, guard rails, stairs, railings, ramps, seats, riser boards, and wheel chair spaces. We also offer a quick assembly model bleacher.

fold & go

BLEACHERS

FOLD AND GO bleachers are manufactured to offer the ultimate in transportability. These units boast two hundred comfortably sized seats and are equipped with a complete highway towing package. The unit moves quickly throughout your community and can be rented out – eliminating the cost and effort of moving existing seating. The FOLD AND GO bleacher is a fully engineered seating package manufactured to exceed all design and code requirements.
